"HDGUARD has allowed us to reduce our maintenance resourcing by over 50%!"

I just wanted to say that I have found HDGUARD to be the single best investment that I have made in managing a 180 PC Local Area Network.

We also use ZenWorks 2.0, Norton Ghost and Netware 6. However, HDGUARD has dramatically reduced our maintenance time. It has also saved us significant \$'s!

I estimate that the combination of these two savings has allowed us to reduce our maintenance resourcing by over 50%. In fact, no other software has revolutionised network management as much as HDGUARD!

The support from eye4you in Perth has never been less than excellent.

It goes without saying that I have no commercial relationship with eye4you, other than as a purchaser of the product.
